*AA=African-American; +=European-American

Deliverables:

- 1) Reports for Seekers, Providers and Executive Summaries posted on website; for the Hispanic mapping events, the Executive Summary is also provided in Spanish
- 2) Continued focus on following up on local action steps
 - a. Working to resurrect a type of photo ID for Hispanics or other undocumented persons with the WS police department
 - b. Working with the WS Human Relations department to help undocumented persons better adapt
 - c. Sharing mapping findings with local agencies and safety nets, such that they might consider altering policies (e.g., asking Community Care Clinic to consider household size for undocumented persons to include those at home for whom they care when calculating sliding scale charges for healthcare)
 - d. Share with Health Dept., to be incorporated with their MAPP methodology
 - e. Create a writing team for publishing findings of the mapping workshops
 - f. Consider specialty mapping workshops (e.g., food access and security, mental health)
 - g. Build mapping team alliances with staff across the medical center and city (e.g., MACHE, Translational services, the BUDD group, Novant, etc.)

Mapping Team (listed in order of level of participation in all 8 workshops, report writing and copy editing):
